

PMLG's World Tour '08 - *Dare to Be Great!*

The Certified Project Manager (CPM) and ITCPM Boot Camp™ Certification Program 64 PDU's

To become a good project manager versus a great project manager? To have academic based confidence or gain experiential confidence? These are choices project managers make everyday. Many settle for concept and theory. Then there is that special group of professionals that recognize that project management is more leadership discipline and skill than science. Are you ready to separate yourself from the pack? Join over 4,000 elite project managers that have successfully completed the experiential based and challenging Certified Project Manager Boot Camp, the only project management certification program proven to rapidly mature both the leadership and project management skills of its students. It is a career decision you will never regret.
